Experience

Web Development Intern(Remote) | VaultofCodes | Link   Feb 2025 – Mar 2025
- Developed 5+ responsive web pages using HTML, CSS, and JavaScript for landing and feature sections, improving load speed by 25%
- Built dynamic and reusable components using React.js (e.g., modals, navigation), boosting user engagement by 40%
- Collaborated cross-functionally with designers and developers in Agile workflow, ensuring timely delivery and seamless UI integration
- **Tech Stack:** HTML5, CSS3, JavaScript, React.js

Web Development Intern(Remote) | ZIDIO Technologies Pvt. Ltd. | Link   Jan 2025 – Apr 2025
- Developed the frontend for a task management web app using React.js and Tailwind CSS, implementing 100% CRUD operations for task handling
- Collaborated in a 3-member Agile team, integrating UI with backend RESTful APIs using Node.js and Express.js
- Used Git and GitHub to manage 20+ commits, feature branches, and pull requests during development under mentor review
- Scored 75% in final evaluation, demonstrating practical skills in full-stack app development and team collaboration
- **Tech Stack:** React.js, Tailwind CSS, JavaScript, Node.js, Express.js, MongoDB, Git, GitHub

Projects

Quiz App | *HTML, CSS, JavaScript, REST API* | GitHub Link | Live Link   2025
A feature-rich quiz application with logic and real-time API data
- Integrated **REST API** to fetch random questions by **topic** and **difficulty**, enabling dynamic quiz generation
- Implemented a **real-time score counter**, interactive UI, and **"Play Again"** feature to improve user retention
- Built with **responsive design** and smooth transitions; supports **100% cross-device compatibility**

Cookie Recipe Website | *HTML, CSS, JavaScript* | GitHub Link | Live Link   2025
An interactive web app focused on a single, engaging recipe use case
- Designed a **step-by-step recipe experience** with **flipbook-style navigation**, improving content flow and readability
- Integrated a **progress bar** and **print-friendly layout**, enhancing user interaction and usability
- Built with fully **responsive UI** and tested across **5+ screen sizes** for consistent cross-device performance

Share Modal App | *HTML, CSS, JavaScript, API* | GitHub Link | Live Link   2025
Responsive modal component for sharing and following social links
- Used **Clipboard API** to copy links with one click, enhancing accessibility
- Created animated modal with **social follow icons**, CSS tooltips, and **overlay effects**

Razorpay UI Clone | *HTML, CSS, Tailwind CSS* | GitHub Link | Live Link   2025
A responsive UI replica of the Razorpay landing page
- Recreated **pixel-perfect layout** using **HTML, CSS,** and **Tailwind**, focusing on design accuracy
- Optimized for performance and responsiveness across **mobile and desktop**
